Dr. Sangeeta Pikale
Ex Joint Treasurer
Mumbai (Maharashtra)

Dr Pratibha Kane
Member,
Editorial Board (Pune)

24-08-2026

Dear All,

Medico Legal Society of India is happy to publish various guidelines which have been created by the association during the last 4 years. Some of these have been submitted to the High Court of Judicature at Bombay, and Supreme Court of India, so that the Governments can frame rules or regulations. These may be notified as and when the Courts give dates and approve them or State Government and Central Government find time. However these have been subjudice for a substantial amount of time. Till such time the rules or regulations are framed, they can be used as guidelines published by MLSI. They will benefit members of the medical fraternity and citizens who may need to be treated under various situations covered by the guidelines. List of the guidelines is as under :

Standard operating Procedures

01. List of services provided by Medico Legal Society of India
02. Important Judgments (keep easily accessible, use in emergency, negligence claim)
03. Sections of BNS to be mentioned in statement in case of Mishap in hospital.
04. Steps to be taken for prevention of violence against doctors and hospitals.
05. Standard operating procedures for Expert Opinion from MLSI

Guidelines (implementable)

06. Medical Certificate for Cause of Death (home)
07. Medical Certificate for Cause of Death (MLC)
08. Guidelines by Kerala High Court for processing of criminal proceedings.
09. Live Demonstration of Surgeries (guidelines by MLSI accepted by NMC)

Guidelines (subjudice)

10. Discontinuation of treatment in Intensive Care Units
11. MTP Beyond 24 weeks in case of minors, rape victims etc
12. Steps to be taken in case of minor patients reporting consensual sex and their MTP

Possibilities for the future :

13. State Reserved Police Force for prevention of violence against doctors.
14. Mechanism to make rare emergency medicines like dantrolene available.

To be avoided :

15. Regarding sending samples to laboratories run by technicians (DMLT)
